

Ecogreen
Grease and Oil Cleaner

Ecogreen Grease & Oil Cleaner

Applications:

- For use in the removal of oil and grease stains from concrete and other hard external surfaces.
- For use in the cleaning of engine parts.
- Can assist in removing heavy oil stains from cleaning rags, drop sheets and workshop overalls.

Customer:

- Motor vehicle, boat and lawn mower owners or users of any other oil/petrol engines.
- All households and workplaces with a parking or driveway area or a requirement to clean engine parts.

Usage:

- Moisten the area to be treated with water and then spread Ecogreen Grease and Oil Spill over the affected area. Rub with a stiff nylon brush and leave. For old and difficult stains, more than one application may be required.
- The bacteria within the product will immediately go to work seeking out and eliminating the hydrocarbons causing the stain.
- The bacteria will continue to work whilst a food source and moisture remains available.
- Ecogreen Grease and Oil Spill removes any need for dangerous solvents to be used around the home.
- To clean driveways, product is most effectively applied whilst it is raining.

Benefits:

- Completely natural biological product that has no detrimental side effect to the environment or atmosphere.
- Safe and easy to use, environmentally friendly - non toxic and non poisonous.
- No requirement for breathing apparatus, gloves or any other safety equipment.
- Can be safely washed down the drain or even on to a garden bed.

Pack Size:

- 1 Litre Container
